

325 Forest School Diary 27th March 2026

Taking inspiration from Year 2, the children in EYFS decided to put together their own Easter garden. Working together the children added soil, moss, grasses and anything else interesting that they could find into a large tuff tray. They finished their creations off with some flowers and of course a cross. Great job!

This week Year 1 set off on an Easter hunt around the woodland searching for hidden chicks, eggs and even hot cross buns. They completed the task by placing them into the correct basket.

Last week in the woodland Year 2 made Easter gardens to remind them of the Easter story. The finished results were very pretty as you can see from our photos. The children enjoyed the activity so much, that some of the children wanted to create an even bigger garden. Well done Year 2!

Woodland adventures for Year 3 this week included whittling sticks that could be used as skewers, toasting hot cross buns over the open fire, and gathering together as many lady birds as physically possible to create a small lady bug garden.

This week Year 4 spent their time being creative, crafting items such as a bow and arrow, story sticks, and crochet to make bracelets. The children even found time to sit and enjoy a hot cross bun.

Year 5 took part in climbing this week. Many of the children pushed their limits to climb higher than they had previously, and should be extremely proud of themselves.

This week Year 6 were very lucky as they were able to enjoy a tasty Easter treat of hot cross buns. They were toasted over the open fire and were absolutely delicious. Many of the group even toasted theirs over small fires built and lit by themselves.
