

327 Forest School Diary 24th April 2026

EYFS used cereal, threaded onto string to make bird feeders. These were then hung up in the woodland to give our resident birds a tasty treat.

Year 1 took part in many activities during their session this week, from digging to planting trees here in the woodland. Everyone was busy having fun in the glorious sunshine.

Year 2 started to build the small wooden rounds that had been cut and painted previously, ready to turn into flowers for our wildlife garden. They also began to plant a mixture of small trees around the woodland.

This week Year 3 enjoyed playing sensory games. They wore blindfolds to navigate their way along a night line walk, in order to safely overcome any obstacles using just their sense of touch.

Year 4 also enjoyed joining in with the blindfold games this week; great fun was had by all. The children all agreed that using only few of your senses can be a little tricky.

This week we tested our Egyptian Shadoofs. Swapping the great River Nile for our wildlife pond, we dunked our bucket, and through the power of levers and fulcrums, raise the filled bucket clear of the water. We learned this was harder than it appeared and soon came to appreciate the necessity of choosing the correct materials and tying very strong knots!

This week, Year 6 were extremely lucky as they got to spend the whole day in the woodland taking part in an adventure day. They enjoyed various activities such as the high ropes, hapa zome, a blindfolded nightline walk, and our new orienteering course.
