

337 Forest School Diary 10th July 2026

EYFS spent their session exploring the woodland to see what creatures they could spot. Meanwhile some of the group made small mud castles using plant pots for a mould.

The children in Year 1 took a walk to the top woodland this week to seek a little shade from the sun. Relaxing on the hammock, exploring the dragon tree and having fun on the rope swing made for a lovely afternoon.

Year 2 have begun crafting themselves necklaces. This has involved using the hand tools such as the bow saw and palm drill.

Year 3 continued with their weaving this week. The children came up with some great ways and methods and tried various techniques such as weaving between the trees here in the woodland.

Year 4 did not have their Forest School session this week due to the Shrek dress rehearsal.

Year 5 enjoyed various Forest School activities this week such as climbing the Josie tree, practising their knot tying skills and crafting with resources found in the woodland.

This week, Year 6 had their turn at climbing the Josie tree in the woodland. All of the children did extremely well, considering this is a rather tricky tree to climb. Well done to everyone! During climbing, the group enjoyed whittling sticks and weaving God's Eye creations.
